ADVANTAGES

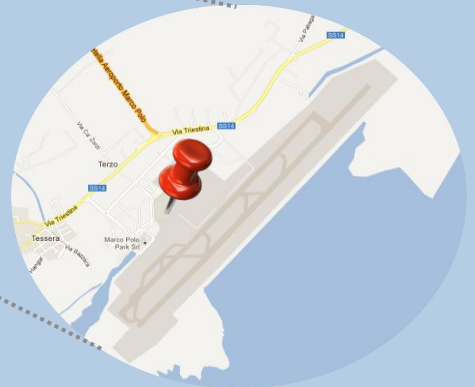

RELIABILITY – FLEXIBILITY – SAVINGS

By choosing the SJI Venice Training Centre, customers may benefit from the following advantages:

- ✓ The highest safety and quality standards combined with the most attractive prices currently available on the market. Special conditions are available for medium or long term agreements providing significant savings to your organization;
- ✓ The strategic location of Venice airport with more than 1,000 flights per week to the major international destinations may contribute to an optimisation of airlines' pilot training rostering together with travel cost reduction;
- ✓ The most convenient time slots for airlines' recurrent and type rating training and for private pilots;
- ✓ An ideal complement to current airline training programmes to cope with eventual peaks and FFS slot saturation;
- ✓ Experienced instructors to train tomorrow's pilots;
- ✓ Complete assistance for trainees' logistic requirements while in Venice. As our customer you will benefit from special rates at hotels located near the Training Centre, for extra savings;
- ✓ Enjoy a location where trainees can benefit from Venice's unique history and beauty.

Located in the heart of Europe and conveniently close to Venice Airport, SuperJet International (SJI) Aviation Training Centre is a certified Approved Training Organization (Cert. No. IT.ATO.0024)
